

Agile Team Project

 Starts 20 January 2022 10:00 PM

ASSIGNMENT DETAILS:

Students will work under groups on any online collaborative tool in assigned project teams. They will create a wikispace (or similar) page related to the assigned Knowledge Area. The primary purpose of this assignment is to relate agile methodologies to Project Management knowledge areas.

Teams will update weekly on dedicated pages. Your page should compare the traditional project management practices used for assigned knowledge areas with Agile/XP practices.

1st Iteration

Explanation of Project Management Knowledge Area with tools and techniques used traditionally.

2nd Iteration

Agile version of assigned knowledge area, identification of agile/XP practices used for that knowledge area application.

Final Iteration

Traditional Project Knowledge Area Compared to Agile/XP Approach

Word Count: 2000 – 3000 approx

Submission Dates:

1st Iteration: 6th April 2022

2nd Iteration: 13th April 2022

3rd Iteration: 27th April 2022
